Dermacan

Dermacan is a skincare brand focused on creating effective, consistent, and trustworthy skincare solutions for Indian skin. Our products are designed to target concerns such as acne, pigmentation, and dullness using proven dermatological ingredients like Salicylic Acid, Niacinamide, Glycolic Acid, and Alpha Arbutin. With lightweight, daily-use formulations, Dermacan is made for real Indian conditions, including heat, humidity, and pollution.

About us

Skincare should be effective, consistent, and easy to trust.mWe focus on what your skin actually needs, not what the market trends suggest. Every product is designed with a clear purpose — to target specific concerns like acne, pigmentation, and dullness using proven dermatological ingredients. Our formulations are built around actives that are widely trusted in skincare science — such as Salicylic Acid, Niacinamide, Glycolic Acid, and Alpha Arbutin — carefully balanced to work effectively without overwhelming the skin.

Our Service

- biotin shampoo
